Do America a favor-settle this case by terminating DOJ action against Microsoft! This litigation has destroyed huge valuations in the tech stock market, financially injuring lots of shareholders(direct and in mutual funds) and pension funds. It may also be responsible for terminating the great bull market and causing the start of the economic downturn, thanks to Billy Clinton and his juvenile delinquent administration.

No, I'm not a Microsoft employee or direct stockholder. I am a user of their products. Are they the best?

Probably not. Are they the PC standard? Don't you know it!
